

## PRESS RELEASE

October 23<sup>th</sup>, 2018

### **VMI Care signs exclusive distributor agreement with APOrx**

**VMI Care is pleased to announce that APOrx has signed an exclusive distributorship for Spain and Portugal for all VMI Care Pharma products. APOrx has great knowledge and experience with Automated Dose Dispensing (ADD) Systems and is a well-known name in the Spanish pharmaceutical industry. APOrx is the robotics automation division of Apotheka.**

APOrx is familiar with the VMI Care products such as the ADD systems for automatically sorting patient medication into easy to use and carry pouch packs, containing precisely the right medication for each “intake moment” during the day. APOrx brings a committed sales and service staff and we are confident that APOrx will be a trusted and successful distributor of VMI Care for many years to come.

APOrx has been appointed to sell, install, service, maintain and support the VMI Care products for Spain and Portugal. With this collaboration, we ensure an efficient distribution and local support for our products. This exclusive arrangement further expands our focus on providing exceptional customer service and product support as we continue bringing new and reliable ADD solutions to the market. We are grateful for our partnership with APOrx and encourage all Spanish and Portuguese customers to contact them directly.
